Lamar's Case to Be Discussed Next Week.

YESTERDAY'S LEGISLATION.

Report of the Committee on Elections Regarding the Redstone Claim.

[Associated Press Dispatches to the HERALD.]

WASHINGTON, January 13.—In the Senate, the bill to create and pay to the several States and Territories and the District of Columbia all moneys collected under the direct tax of August, 1861, was taken up, the question being on a verbal amendment by Hoar, when the bill was up some days ago.

After a general debate which lasted over an hour, Riddleberger made a motion to go into executive session, his purpose being to forward the action on the nomination of Lamar. The motion was lost by a tie vote, division being upon party lines, except that Riddleberger voted with the Democrats. A few minutes later he renewed his motion, stating that it was his understanding that there was an agreement that the Senate should go into executive session to-day. The motion was lost this time by 26 to 20. A majority of the Senators do not understand that there was any agreement for an executive session to-day, but on the contrary that there was a tacit acquiescence that no action should be attempted until Monday on the Lamar matter and Cabinet nominations.

The votes of to-day are not held to have any significance or bearing upon the result in the Lamar case, since some of Lamar's friends abstained from voting in consequence of what they understood to be the tacit understanding of yesterday.

THE REVENUE QUESTION.

The direct tax bill was then laid aside, and Vance proceeded to address the Senate on the resolution offered by Brown, proposing to abolish National revenue taxation.

Vance said that the lines had been drawn closely by the President's message on the subject of surplus and taxation. The contest had to be fought out squarely, and the question decided unequivocally on its merits. The question was should taxation be enforced for the support of the Government or for the enrichment of private individuals. He declared that the central theory on tariff was in equity, and he was opposed to the whole thing out and out. He should not vote to put anything on the free list tax on which was pure revenue; he should strive earnestly to reach taxation on the necessaries of life, and he should discriminate against nothing except luxuries, and in favor of the helpless and unprotected. The resolution was laid aside.

NEW BILLS BROUGHT UP.

Senator Plumb introduced a bill declaring forfeited all lands, except the right of way granted States to assist railway construction; such lands, however, to be open for settlement under the homestead laws.

Senator Stewart offered an amendment to the bill for the investment of certain funds in the Treasury, providing that persons may deposit at any mint or assay office gold or silver bullion, receiving certificates therefor in denominations of not more than $2000 nor less than $1000.

Sherman offered an amendment to the Deficiency Appropriation bill, allowing 6 per cent. interest from the time the deficiency bill of last Congress failed to pass.

The Blair Educational bill was taken up, and constitutional argument made against it by Gray. After some little debate, participated in by Gray and George, the bill went over as unfinished business, and the Senate adjourned until Monday.

THE HOUSE.

Redstone's Claim for a Seat Declared Untenable.

WASHINGTON, January 13.—In the House to-day, Hatch, of Missouri, reported a bill making an appropriation to carry into effect the act to establish experimental agricultural stations.

The bill relating to permissable marks of writing or printing, on second, third and fourth class matter in the mails was taken up and passed, and the house went into committee of the whole, Hatch, of Missouri, in the chair, on the private calendar. One private bill passed and the committee rose.

Mills, of Texas, then moved an adjournment until Monday, which was lost.

Morrow, of California, from the Committee on Foreign Affairs, reported a joint resolution appropriating $50,000 to enable the Government to participate in the International Exhibition to be held at Melbourne in April, 1888. Referred to the committee of the whole.

CONTESTED CASES.

The assignment of the hearings of the election cases was made to-day, and the contests of Sullivan and Felton and Lynch and Vandever are at the foot of the list and probably will not be settled until late in the session.

Crisp, of Georgia, Chairman of the Committee on Elections, presented a report upon the case of A. E. Redstone, claiming to be elected to Congress from the Fifth California District. The House Calendar Committee finds that as Redstone served no notice or contest and filed no evidence, there is not sufficient foundation to warrant a contest.

ADJOURNMENT AGAIN ADVOCATED.

Hatch rising said that in view of the fact that Mills had stated to several gentlemen that there would be no session to-morrow he would like the vote by which the house had refused to adjourn over reconsidered, but Mills interposed an objection and again submitted a motion to adjourn until Monday amid derisive laughter from the Republicans. This time Mills was successful, Hatch himself voting in the affirmative, and the motion was carried, yeas 115, nays 103. The House then adjourned.

METAL MEN.

They Object to a Reduction of the Duty on Ore.

CLEVELAND, Ohio, January 13.—The annual meeting of the Western Iron Ore Association to-day adopted a memorial to Congress remonstrating against the removal or reduction of the duty on ore. After reciting the immense interests involved in iron and the transportation of it and its products, the memorial declared that if the duty was lowered it would close many mines. It is also claimed that the present duty, 75 cents per ton, was insufficient to allow competition with foreign markets.

Disputed Territory.

WASHINGTON, January 13.—Representative Chipman, of Michigan, has laid before Secretary Bayard the complaint of S. F. Tolsma, a citizen of that State, alleging that his nets have been seized and he has been unlawfully deprived, by Canadian authorities, of a right in the St. Mary's river. The trouble arises out of a dispute as to the boundary line between the two countries.

Quite An Innovation.

SALT LAKE, January 13.—Two bills providing for the punishment of bigamy and polygamy, virtually reenacting the Congressional legislation contained in the Edmunds-Tucker law, were introduced in the Legislative House this afternoon. They are the first steps toward following the recommendations of Governor West's message.

Self-Succession.

JACKSON, Miss., January 13.—Senator Wallthall was unanimously nominated his own successor by the Democratic caucus to-day.

Nicholls Nominated.

BATON ROUGE, January 13.—Nicholls was nominated to-day for Governor on the first ballot.

San Diego Locals.

SAN DIEGO, January 13.—Attorneys for Hanbury & Garvey, whose property was attached by the International Company several days ago have served notice upon the company of a motion to dissolve the attachment.

Frank Jaynes, Superintendent of the Western Union Telegraphic Company, arrived here today to arrange for better telegraphic service in this section.

At a director's meeting of the San Diego and Elsinore Railroad to-day it was decided to locate the general offices and repair shops here.

Flashes from Fresno.

FRESNO, January 13. — County Treasurer Nelson has asked the Board of Supervisors to deposit the county's money. The vaults are filled to overflowing and the surplus is deposited in the city banks.

The executive committee of Fresno Parlor No. 25, N. S. G. W., met last night to arrange the preliminaries of the reception of the Grand Parlor, which meets here next April. The parlor intends giving a grand reception.

Arrested on Suspicion.

SAN FRANCISCO, January 13.—An El Paso special to the *Examiner* says: A man was arrested last night near Chihuahua on the Mexican Central passenger train due here this morning, charged with being one of the band who robbed the Mexican Central train on Tuesday night. He gives his name as Doc Judd. Conductor Dodsey received a telegram at Montezuma Station to arrest him.

The Small-Pox.

SAN FRANCISCO, January 13.—The steamer Gaelic arrived from China and Japan this afternoon with two cases of small-pox on board. The vessel was immediately placed in quarantine.

A case of small-pox was discovered in the county jail and the prisoner sent to the pest house. Three other cases were reported at the health office to-day.

Austin's Statement Disbelieved.

SAN FRANCISCO, January 13.—A telegram from Fresno stating that Frank E. Austin, of Stockton, had arrived there and disclosed to a committee of citizens that he represented the Milwaukee and St. Paul road, which was building from Bakersfield to Stockton, is not credited here by railway men. They do not believe that the St. Paul Company has any such project on foot.

Railroad Changes.

SAN FRANCISCO, January 13.—E. H. Miller, Jr., has resigned his position as Secretary and Controller of the Southern Pacific Railroad Company, and S. L. Lansing has been appointed to fill the vacancy. It is said that Mr. Miller will resign as Director of the Southern Pacific in a few days, but will remain Secretary of the Central Pacific Company, where his duties will be less arduous.

McCord's Case Continued.

SAN FRANCISCO, January 13.—The second trial of James McCord, charged with embracery, was continued by Judge Sullivan until the 20th instant.

The examination of A. C. Dietz, one of his bondsmen who was absent from the Court when wanted as a witness, was postponed until the same date.

A Well-Attended Sale.

SANTA ANA, January 13.—The excursionists from Los Angeles to attend the auction sale of the Chandler property here filled eleven coaches. Large numbers also arrived by the regular train.

From Prince to Pauper.

SANTA CRUZ, January 13.—Charles Brown, who came here twenty years ago with $100,000 and built the St. Charles Hotel, died a vagrant at the County Hospital to-day.

Stubbs Starts East.

SAN FRANCISCO, January 13.—J. C. Stubbs, Traffic Manager of the Southern Pacific road, left for St. Louis to-day to attend another meeting of the Trans-Continental Association.

"BEAUTIFUL SNOW."

Appalling Weather East of the Rockies.

LOSS OF LIFE REPORTED.

Forty-Seven Degrees Below Zero Registered at Some Points in Dakota.

[Associated Press Dispatches to the HERALD.]

MILWAUKEE, Wis., January 13.—Specials from the interior of the State show that many cities are completely shut off from railway communication with the outside world. At Superior no mails have been received for 36 hours. The thermometer registered 27 below zero this morning, and all trains on the Northern Pacific are snow-bound or abandoned. No trains have reached Madison since yesterday.

BAD FOR TRAFFIC.

ST. PAUL, January 13.—Weather reports early this morning from various points along the railroad were discouraging and it was decided to abandon running trains. It is thought that some of the branch lines in Minnesota and Dakota will be closed for six weeks. It is feared the worst is to come. The wind is blowing hard on all the lines to-day and the cuts are being filled as fast as they are cleaned out. The storm of yesterday is now raging in Iowa, and a storm is expected to strike Minnesota on Sunday, in which case there is no telling what the result will be. It is raging in Idaho to-day with the thermometer at various points along the Northern Pacific as low as 10 degrees below zero.

MANITOBA REPORTS

From the Northwest indicate a cold wave with a high wind coming from that direction. In fact things look so dubious that railroad men will not venture an opinion when traffic will be resumed. Each line is putting forth every exertion to keep the Chicago lines open, but even that is almost an impossibility.

At noon to-day no trains had come in. At Fergus Falls, Minn., the thermometer is 30 degrees below zero. All the schools are closed.

At Duluth, Minn., yesterday afternoon's St. Paul trains got in this morning. No Northern Pacific trains have arrived or departed.

At Clear Lake, Minn., the north and south-bound Northern Pacific trains are snowed in.

At Crockton there has been no train for two days. It began blowing yesterday, and piled the snow in drifts eighteen feet high.

At Fargo the storm yesterday was the worst in eight years, with the mercury 47 degrees below zero and a hurricane blowing.

The Jamestown and Northern branch of the Northern Pacific is entirely stopped this morning. The blizzard's force is now mostly spent, and trains will soon be running regularly.

GENERAL SUFFERING.

MINNEAPOLIS, January 13.—Reports from all over the Northwest indicate that the prevailing blizzard is the worst and most extended of the season. Its area of operations is from the Rockies to Lake Michigan, but Minnesota and Dakota are the worst sufferers. On the roads running west from here all freights are abandoned and passenger trains run at long intervals, though every effort is made to keep them moving.

FURIOUS GALES BLOWING.

FAULKTON, Dak., January 13.—The most terrific storm ever witnessed in this latitude has been upon us for the last forty-eight hours. It reached its worst yesterday, and from 10 o'clock until dark there was not ten minutes that buildings on the opposite side of the street could be seen. The air was full of snow and the wind blowing a gale from northeast. The mercury gradually dropped from about 10 above to 16 below. At dark last night the teachers and most of the school of two lower departments of our school were compelled to remain in the schoolroom all night, provisions being carried to them. Ropes were stretched from the corner of Main street to the schoolhouse, enabling those carrying provisions to go and come with safety.

MANY LIVES LOST.

OMAHA, January 13.—The effect of the present storm in Omaha has been most disastrous. Frederick Ellen, a cigarmaker, was found frozen to death at 3 o'clock this morning within a block of his boarding-house. Two school children started for their homes about 3 o'clock yesterday afternoon and have not been heard of since. A large number of people went over to Council Bluffs yesterday, and last night it was reported that a number had been lost in the snow in attempting to return. All have been accounted for, however, except one young lady, and it is feared that she has perished. The thermometer is sixteen degrees below zero to-night and rapidly falling.

A LULL IN THE STORM.

FERGUS FALLS, Minn., January 13.—The blizzard has subsided and is succeeded by intense cold, the roads are drifted full and business is at a standstill.

MINCH, Dak., January 13.—No trains are moving yet. The storm has abated, but the winds are still blowing. It was 30 degrees below here this morning. There are fourteen inches of snow on the level. James Smith and two sons, aged 15 and 17 started for a load of hay six miles from town on the 11th and have not since been heard from. Search parties were sent out to-day. Several other people are missing, but are supposed to have taken refuge in claim shanties.

JAMESTOWN, Dak., January 13.—The storm still continues, although much abated. Yesterday's west-bound limited snowed up at Wheatland all day, arrived this evening about 40 hours late. The Northern Pacific main line and branches are all blockaded and all trains are delayed from 12 to 36 hours.

STOCKMEN IN BAD LUCK.

RAYMOND, Dak., January 13.—The damage to live stock will be great, and reports of suffering and death are constantly coming in. Two sons of William Driver were frozen to death within a few feet of their barn. Chas. Heath is missing, and J. H. Clapp has been discovered badly frozen; he having been out all night wandering on the prairie. The elevator of Archie & Howe has burned down with 13,000 bushels of grain. Other minor casualties are reported.

MORE MEN MISSING.

ADRIAN, January 13.—Several farmers living twelve to fifteen miles north started home from here about 3 o'clock yesterday and have not yet been heard from. John Doning Camper, a farmer living a mile north of here, was at a neighbor's, a quarter of a mile away. He started home and was lost. Some fifty villagers started out to find him, but so far have not done so. The storm is still raging.

AN INTERESTING SIGHT.

BRAINERD, Minn., January 13.—A procession of Northern Pacific trains, headed by a snow plow and snow bucking force left here to-night to open the road south to St. Paul, and at last reports, was proceeding slowly. It includes eight locomotives, nearly thirty passenger coaches, three dining cars and about 100 passengers.

HELENA, Mont., January 13.—The thermometer registered 40 below to-night. No trains are moving. Two men have been frozen to death at Marysville, twenty miles from Helena.

HITCHCOCK, Dak., January 13.—Emil Gilbertson, formerly of Chicago, was found frozen to death two miles and a half west of here. He left here on Wednesday for his claim.

CANTON, D. T., January 13.—Two children at Inwood, Iowa, were caught in the blizzard while going home from school and perished.

SUDDEN CHANGES REPORTED.

HELENA, Mont., January 13.—A Billings special to the *Independent* says: The weather is growing suddenly colder, being 14 degrees below zero, but stock is not suffering, grass being plentiful.

MINOT, Dak., January 13.—Have been snowed in here for two days. A severe storm is raging and all the railroad cuts are full.

A Belgrade, Mont., special to the *Independent* says: At 9 o'clock this morning the thermometer registered 31 degrees below zero. The railroad company has not moved a car of grain or flour from this valley for thirteen days. Pat Hanley was frozen to death near Marysville.

NEW MEXICO FEELS IT.

ALBUQUERQUE, January 13.—A heavy fall of snow between Flagstaff and Williams, on the Atlantic and Pacific, has suspended business on the road. Arrangements have been made with the Southern Pacific by which the Atlantic and Pacific passenger trains can pass over that line until the blockade is opened.

COLD IN COLORADO.

DENVER, Colo., January 13.—A cold wave struck the city at noon to-day. At 9 o'clock to-night the thermometer dropped to zero from 40 above. All trains on the Union Pacific are snowbound at Columbus, Neb., none arriving here for thirty-six hours. The trains on the Santa Fe are also blockaded and twenty-four to thirty-six hours behind, but the Burlington road is running nearly on schedule time.

CAGED AT LAST.

Arrest of Bourton the Celebrated Confidence Man.

NEW YORK, January 13.—After eluding detectives for a year, the man who so successfully swindled the residents of the City of Mexico out of $30,000 by the spurious advance sale of tickets for the Patti concert, has been arrested, His name is Charles Bourton. The swindle in the City of Mexico is not the only crime for which he is wanted. He is one of the most successful and dangerous confidence men, and has operated successfully all over Europe, and if the Mexican authorities do not want him, he will be held to answer to some other of his many offenses.

TO THE DEATH.

Desperate Feud in an Alabama Hotel.

ANNISTON, Ala., January 13.—R. H. Evans and W. R. Williams killed each other at the Parker House yesterday. Williams was proprietor and Evans and wife were boarders. Williams made objections to them some days ago and words passed between them. Evans returned yesterday afternoon, renewed the difficulty and began firing. Evans emptied five barrels and Williams four. When Williams fired his last shot they were down on the floor together and the powder burned Evans' coat. Williams killed Evans after he himself had received mortal wounds.

LIBERTY OF THE PRESS.

Resolution of Sympathy With the Persecuted Irishmen.

LINCOLN, Neb., January 13.—The State Press Association to-day adopted a resolution condemning the persecution of the National press of Ireland as unworthy of constitutional government and expressing to Wm. O'Brien, T. D. Sullivan, J. B. Hayward, Edw. Walsh, Edw. and Timothy Harrington, Alderman Hooper and Mr. Crosbie admiration for the courage they displayed in defending the rights of the press assailed by unwarrantable despotism.

Affairs in Canada.

MINNEAPOLIS, Minn., January 13.—A *Journal's* Winnepeg special says: "In the event of the defeat of the Harrison government, which is now regarded as certain, Greenway's cabinet will consist of Mayor Jones of Winnepeg, Isaac Campbell of Winnepeg, and Mr. Pendergast, the latter representing the French element. It is proposed to form a penal colony for the Dominion at Athabasca, in the far Northwest district.

Printers' Strike.

LOUISVILLE, January 13.—Over one hundred printers, a third of all the Union printers here, have been on the *Courier-Journal* pay roll. To-night all of these except six are on strike. W. N. Haldeman, President of the *Courier-Journal* Company, said this afternoon that "after 10 o'clock to-morrow morning men will be at their cases to stay, and from this time on this is to be a non-Union office."

"ALL FOR GLORY."

Forty Russian Soldiers Frozen to Death.

HARDSHIPS ON THE FRONTIER.

Gleanings of Interest From All Parts of the European Continent.

The child stated that as she was leaving the postoffice on Thursday afternoon she was accosted by a well dressed man, who stated that he was going to take her to San Francisco, and if she made any resistance he would cut her throat. At the wharf in San Francisco she became separated from her abductor in the crowd. Appealing to an officer she was conducted to the residence of her aunt.

THE HOPKINS TRIAL.

Damaging Testimony Introduced In Evidence Yesterday.

CINCINNATI, January 13.—In the trial of Benjamin Hopkins, assistant cashier of the Fidelity National Bank, in the United States Court to-day, John K. Powell told how he was called after 5 o'clock, on June 14th, by Harper to make up $1,000,000 in securities to send to the Chemical National Bank of New York, and how on his way to the express office with it he met Hopkins, who went with him and assisted in sending it.

J. W. Wilshire testified that Hopkins was present when he called on Harper to arrange about going to Chicago with $600,000 for brokers. He said that Hopkins went out to telegraph for Hoyt to go with him.

A STARTLING SUIT.

Eighty Acres Claimed in the Heart of Salt Lake City.

ST. LOUIS, January 13.—A dispatch from Kansas City says: Papers in a suit involving the title to eighty acres of land in the heart of Salt Lake City are now being drawn in this city, and are to be filed in the United States Territorial Court of Salt Lake in a few days. The plaintiff is Captain John Tobin, an old-time scout and guide, and a noted man on the frontier thirty years ago. Defendants are a large number of persons now holding and claiming to own houses and lands adjoining what are known as the warm springs in Salt Lake. The land claimed by Captain Tobin is valued at $1,000,000, and the improvements are very valuable.

DESTRUCTIVE FLAMES.

$7,000 Worth of Damage Done at Colusa.

COLUSA, Cal., January 13.—Fire broke out at Buctel's tailor shop this evening and burned the shop, the adjoining dwelling and Dejannatt & Sons' meat market. It was stopped in the postoffice, in the *Sun* building. The postmaster saved all mail matter. Great damage has been done to the postoffice, Wells Fargo, J. F. Riche, D. Johnson, B. A. Pryor, Richard Bayne, W. S. Green, and Dr. Belton's office by moving and water. The *Colusa Sun* building is considerably damaged. The office is not injured. Loss about $7000, partially insured.

TURBULENT BAKERS.

A General Strike Ordered in San Francisco.

SAN FRANCISCO, January 13.—The trouble between the master bakers and employes assumed greater proportions than prior to May 7th, when an agreement was patched up by which the employes got Sunday off, the master bakers having determined at a meeting recently held, to cancel this agreement, Mr. Westerfield of Market street taking the initiative. A meeting was held at ten o'clock this morning, lasting all day. A general strike was ordered and will be participated in by all unions excepting 51 and 45. The strikers now demand, in addition to Sunday off, $4 a month extra for room-rent, refusing the free lodgings of the master bakers.

A Schoolhouse on Fire.

CHICAGO, January 13.—The woodwork in the Irving Public School engine-room took fire this afternoon, and when the smoke filled the rooms a panic for the time imminent. The teachers succeeded however in preserving order, and the children were marched into the street. ORIENTAL NEWS.

Latest Advices From the Flowery Kingdom.

A BIG LOAN TO BE EFFECTED.

Dispute with the King of Corea Regarding His Fealty to China.

[Associated Press Dispatches to the HERALD.]

SAN FRANCISCO, January 13.—The Chinese mails arriving by steamer Gaelic to-day, have little news on the Corean matter, or treaty with Portugal.

The *Daily Press* says that the statement made by a Tientsen correspondent of the *Shanghai Mercury*, that the Hongkong and Shanghai bank has concluded a loan with the Chinese Government for 6,000,000 taels is not correct as no such loan has been negotiated.

Another paper says that the Emperor rejected the loan which the Chinese Government had negotiated with the Hongkong and Shanghai bank for the purpose of repairing the banks of the Yellow river, on the ground that the sum of 2,000,000 taels which had been raised by China was itself sufficient for the purpse.

A SUBMISSIVE SERVANT.

Advices state that previous to the sailing of the Corean embassy to the United States the King of Corea had received telegraphic instructions from the Emperor of China, conveying a decree stating that envoys to Western States must first ask for instructions, and they will be allowed to go after the consent is received, which will then be in accordance with what is proper for a dependent state. The King, on receipt of the Emperor's edict, prepared a memorial, wherein, after acknowledging China's suzerainty over Corea, he recites the facts that special permission was granted in the first instance to enter into a treaty with America; that afterwards several other nations of the west had concluded treaties on the basis of the former, and that the King's little State, anxiously considering the situation and desirous of keeping the treaties, had nominated Pak Chien-Yang to be plenipotentiary, and to proceed as envoy to the United States and Cho Chyenhi, plenipotentiary and to proceed to take his residence in the five countries of England, France, Germany, Italy and Russia.

THE KING THEN BEGGED

Further instructions and permission for the vassal envoys to proceed on their way in order to fulfill the objects of their missions, and to be in accordance with the original treaties. That he did not wait for the permission asked is shown by the fact that on the afternoon of December 16th, a Chinese fleet of seven vessels arrived at Chemulpo, under command of Admiral Ting, just seven hours too late to offer resistance to the exit of the mission to United States.

Jho Sin Hwei, a dignitary of the third rank, is now in possession of a royal warrant to proceed as Ambassador to the courts of Europe. He has just sailed from Chemulpo. No preparations have yet been made for a dispatch of tribute to China. The Embassy to China usually starts overland for Pekin early in December.

A LOAN NEGOTIATED.

It is generally understood that W. D. Townsend, of the firm of Morse, Townsend & Co., has succeeded in placing a loan for $1,000,000, at 8 per cent. with an American syndicate on behalf of Corea.

Duties on Fruit.

SAN FRANCISCO, January 13.—Secretary Wickson, of California, states that the Horticultural Society has mailed a memorial to the Pacific coast Senators and representatives praying against the duties from foreign fruit and fruit products of all kinds in case of a revision of the tariff, holding that alien competition products would, in such a case, menace a great industry.

Interesting for Ladies.

MADISON, January 13. — The Supreme Courtroom was crowded by ladies desirous of hearing the arguments in the woman suffrage cases. At a late hour this evening the Judges took the matter under advisement. It came up on the appeal of Mrs. Olympia Willis Brown, of Racine, who tried to vote for municipal officers under the law permitting women to vote on school questions.

Capital Punishment in Italy.

The Italian Minister of Justice, Signor Zanardelli, has just drawn up a new criminal code, from which capital punishment has been omitted. There is a good deal of speculation in Italy as to whether the Legislature will finally abolish the punishment of death. Three times within the last twenty years the Chamber of Deputies has voted for its abolition; but in each case the Senate has refused to confirm the vote. Since King Humbert ascended the throne there has not been an execution; and it is argued that it is absurd and undignified to retain in the code a penalty which is never applied. To this it is naturally objected that King Humbert will not live forever, that succeeding monarchs may be less tender-hearted, or that some serious outbreak of crime against the person may render it necessary to make an example. It has more than once happened that when capital punishment has been abolished it has been found necessary to re-establish it. This was the case not long ago in several of the Swiss cantons.—[St. James Gazette.

Comparisons of the Number of Local Riders.

The appended statement was furnished by the Southern Pacific Company, and is a comparison of the local passenger business done during the three months, September, October and November of 1886 and 1887.

The result shows that the passenger traffic to and from the points given has increased 149 per cent., or that 129,362 persons more were carried during the three months of 1887 than during 1886. Following is the statement, which has been in type several days, but was crowded out for lack of space:

NEGLECT CHARGED.

Capt. T. A. Gilbert Says He Was Not Treated Right.

Captain T. A. Gilbert, who was foreman of the gravel train in the collision of December 11th, was crippled and had six ribs broken. He says that he was compelled to lay in the hospital a day and a half without treatment. He was there four weeks, and he says the only treatment he received was a court-plaster, a few pills and little cough syrup. He was discharged from the hospital after that time. The examination by Dr. Kannon showed that he needed constant attention and should have been detained at the hospital. Dr. Tremaine complained that the hospital funds were exhausted, and for that reason the patient was discharged. Mr. Gilbert reported to Superintendent Shepherd, who told him to get a good doctor and have the bills sent to him for settlement. Dr. Kannon examined him and found two ununited fractures of ribs, hypostatic pneumonia underneath ribs, also myelitis of the muscles of the neck. Dr. Kirkpatrick corroborated Dr. Kannon's examination.

The employés of the Santa Fe road are reported to be circulating a petition for the removal of Drs. Tremaine and Wing for not attending to their duties. The men subscribe to the hospital funds and complain of receiving no treatment. Mr. Gilbert has been an employé of the road for nineteen years, and always gave satisfaction, and the officials of the road are doing all in their power for him.

FIRE MATTERS.

Meeting with the Underwriters Yesterday.

The members of the Fire Commissioners, Messrs. Workman, Humphreys and Teed, together with a number of representatives of different insurance companies, hailing from San Francisco, San Jose and several of this city, met at the Mayor's office yesterday at 11 A. M., for the purpose of formulating some definite plan of action by which the property in the city of Los Angeles might be made more secure from fire and the risk taken by insurance companies diminished.

Colonel Wm. Sexton, of San Jose, stated that he wished to correct an opinion which he had heard intimated, which was to the effect that this delegation of insurance men implied a threat on the part of insurance companies to pull out of what some people were pleased to call a "five-story city with a two-story fire department." Said he, there are gentlemen here that represent $150,000,000 of capital, and we are ready to take up any of the policies held by a withdrawing company. We realize that you have not such a fire department as a city of this proportion should have, but we further wish it understood that we fully comprehend the marvelous growth experienced and the impossibility of a department keeping pace with it.

Mr. Cofrom, Mr. E. D. Farnsworth and other gentlemen from San Francisco, expressed themselves as being well pleased, after examination, with the Fire Deparment, stating that they felt assured of its efficiency, but they had discovered the water supply to be totally inadequate. Chief Moriarity stated that he considered the supply ample if there was a way provided by which it could be utilized. He advocated that the main of the Citizens' Water Company on the hills be connected by a ten-inch pipe with the twenty-two inch main on Main street. Mayor Workman and Mr. Humphreys cordially invited the visitors to express themselves freely as to the needs of the city, assuring them that any suggestions they should be pleased to make would be thoughtfully considered by the Board, which was anxious to do everything in its power to further the interests of the city in more perfectly protecting the property of citizens against fire. Mr. Sexton informed the Board that the rate adjuster of the Pacific Insurance Union, Mr. Stillman, would be in the city to-day, and after consulting with that gentleman they would be pleased to meet the Board at any time they would designate and confer with them.

The question of engines was brought up, but no particular manufacture was recommended. The expression was that in a city such as Los Angeles is both heavy and light engines should be in the service, as where one would be required another would be useless.

The ordinance prohibiting firemen from driving through the streets at a greater rate of speed than eight miles per hour was heartily and unanimously condemned.

A special meeting of the Commissioners was called for 11 A. M. to-day.

TO LIGHT MONROVIA.

A Proposition to Use Electricity.

There is a proposition on foot to light Monrovia with electricity. On Saturday last W. E. Dennison, manager of the Electric Development Company of this city, visited Monrovia and Saw Pit Cañon to inspect the water supply and the chances offered for securing the requisite power.

In a conversation with Mr. Dennison he informed us that with a fall of eighty feet, which could easily be secured, and using a twelve-inch turbine wheel, a 192-horse power could be secured. Such a wheel would use 50 square inches of water and 1503 cubic feet of water would pass through it per minute, the wheel making 905 revolutions in that time. This 192-horse power would be sufficient to run 2300 16-candle power lamps; more than would be required at the present time. The estimated cost of putting in the flume, wheel, wires and masts would not exceed $15,000, and might be much less. This would be with 750 lamps. The expense of conducting such a plant after it was once established would be slight, requiring the services of two men, one to take charge of the works and the other to attend to the business. Aside from this there would only be the interest on the cost of the plant and a slight outlay for possible wear or damage to the system. It would be safe to estimate that electric light thus furnished would be as cheap as gas at $1 per 1000 feet.

Democratic City Committee.

At a meeting held by the Democratic City Central Committee Friday evening, January 13, 1888, at the office of Wm. R. Burke, Chairman, the following resolutions were unanimously adopted:

WHEREAS, It has been currently reported that the Democratic organization of this city, acting through this committee, has called an indignation meeting of the Second Ward, to be held the evening of January 14th, and whereas this committee has not called, or authorized, or sanctioned such a meeting; therefore, be it

Resolved, That if any meeting shall be held as above named in the Second Ward of said city, the same will not in any sense an assembly authorized to speak for the Democratic party, and should be construed solely as representing the views of the individuals connected with it.

Resolved, That when such action may be deemed necessary, this committee, as the executive body of the Democratic party, is the proper source from which it should emanate.

Resolved, That a copy of these resolutions be published in the HERALD.

Rock-Throwing Roughs.

As the train on the Southern California Railroad which is due in this city from San Bernardino at 3:35, but owing to a delay reached here at 6 o'clock last night, was approaching the Arroyo Seco bridge, a large stone was thrown through one of the panes of a car window, striking a lady passenger on the shoulder. The lady fainted from the effect of the blow and the shock she received, and some time elapsed before she regained her senses. This is not the first occasion of such an outrage, and it is hoped that the miscreant who was the perpetrator of the deed may be arrested and severely punished.

Santa Ynez Valley Lands

FOR SALE IN LOTS TO SUIT, FROM 10 ACRES UPWARDS.

THE UNDERSIGNED WOULD RESPECTFULLY CALL THE ATTENTION of intending purchasers to the lands of the Santa Ynez Land and Improvement Company, which is without doubt the best investment in California. These lands can be bought in any quantities desired and are as good for the cultivation of Olives, Prunes, Oranges, Walnuts, Almonds, Grapes, or in fact any fruits or vegetables that are grown in Southern California as any lands in Los Angeles county, and can be bought on reasonable terms and at a very small part of the price that would be asked for the same lands here, so that it offers one of the best opportunities to parties selling out here to reinvest. To Eastern purchasers this is one of the best opportunities to invest in lands that are bound to be worth double the price that are now asked for these within a very few months, as both the Southern Pacific and A., T. & S. F. Railroads have surveyed through the entire tract, which will double the value of these lands as soon as completed past this tract.

Descriptive Catalogue, Maps, Price and Terms furnished on appplication. Every facility will be given purchasers who would like to visit the tract before purchasing. Vehicles will be on hand to take customers over these lands and every thing done to make a visit to this section agreeable.

BARTON RANCH!

BUT EVERY WORD IT CONTAINS IS TRUE!

And any person looking for an investment, or a home, who will do me the favor to go with me to examine the property, if they do not find everything even better than I represent it, I will return their railroad fare and all of the expense of the one day necessary to examine the property. Very respectfully,

W. P. McINTOSH,

13 SOUTH MAIN STREET, Los Angeles, Cal.

LOCATION AND DESCRIPTION OF THE BARTON RANCH.

The BARTON is located about 5 or 6 miles southeast of San Bernardino City and is adjoined by REDLANDS on the southeast, LUGONIA on the east, GLADYSTA on the north, TERRICINA on the south and OLD SAN BERNARDINO on the west.

RAILROADS AND MOTOR RAILROADS.

The San Bernardino Valley Branch of the Santa Fe R. R. that runs from San Bernardino to MENTONE, crosses the northern portion of the BARTON RANCH. The Southern Pacific passes ¾ of a mile west of the ranch. The SAN BERNARDINO MOTOR R. R. will run through the center of the Barton ranch and the BUTTON Motor will run along the north line on Colton avenue.

POINTS IN FAVOR OF THE BARTON:

SOIL, red sandy loam, adapted to the successful growing of fine oranges and all other semi-tropical fruits and grapes. The trees are now loaded with oranges, and over 250 tons of grapes were sold in 1887.

THE WATER SUPPLY

Is furnished by the old Mill-creek Zanja that was constructed by the Jesuit Fathers over 100 years ago. Water will be piped to every 40 acres.

CLIMATE.

The climate is dry and healthy, never too cold and very seldom too warm to be comfortable; nights always cool. People suffering with bronchial or any throat or lung troubles are benefitted by living at Barton or vicinity. Fogs scarcely ever drift in that far from the ocean, nearly every day being bright and sunny.

The rainfall will average about 20 inches annually. The mountain and valley view from the Barton has scarcely any equal. There is not enough frost to hurt the most tender fruits. No scale bugs or fruit pests of any kind.

Streets are all graded through the land.

PRICES AND TERMS:

The prices range from $450 to $700 per acre, including water. The ELEGANT VILLA LOTS of one-half acre each, adjoining the hotel, $1000 each, with water, of which there are but 39 altogether. The terms are ¼ cash, ¼ in 6 months, ¼ in 12 months, ¼ in 18 months, ¼ in two years. For Maps and Particulars Apply to

THE POSTOFFICE.

Tenders Invited for a Suitable Building.

THE PRESENT SITUATION.

An Increase of the Staff and Better Accommodations Urgently Needed.

The present quarters occupied by the Postoffice Department have proved so totally inadequate that it has been decided to move into another and more suitable building as soon as the desired accommodation can be obtained. For this purpose, tenders were invited, returnable on Thursday last, and with a view of ascertaining what proposals had been made, a HERALD reporter called at Mr. Preuss' office yesterday afternoon. He found that gentleman hard at work, as usual, and was subsequently introduced to the Postoffice Inspector, through whose hands all applications must pass. An inquiry by the scribe as to what offers had been made elicited the following reply: "We are not to make public the proposals we have received, and all I can tell you is that several tenders have been sent in, though not so many as we would wish. With a view to having a wider range for selection, we have decided to extend the time for receiving applications till to-morrow (Saturday) at 2 P. M. I wish therefore that you would make a statement to that effect in your paper. The building we will require will necessarily be a large one, with a surface area of not less than 15,000 square feet. As regards the present quarters, it is absolutely impossible to attempt to do the work, handicapped as we are for want of room, in addition to our other lack of facilities. The working staff should be increased to at least forty, not counting the carriers. At the present time there are thirty-one names on the roll, five of whom are only engaged temporarily and subject to dismissal at any moment. In a short time it will also be necessary to engage five or six more foot carriers and also another mounted collector for the outlying districts. I think there is no doubt but that permission to increase the staff will shortly be received, in fact I have official intimation to that effect.

No, there is no trouble in getting efficient men, but in my opinion the remuneration is totally inadequate to the responsible work done here.

THE CHIEF TROUBLE

About the working of this office is that all the heavy mails come in between 6 and 9 A. M., and they all have to be sorted while the public are waiting for them. Now if the mails came in in the evening the trouble could be easily settled for we could put on a night shift and during the "silent hours" everything could be sorted and arranged and ready for the public the first thing in the morning. But this is of course impossible, as the overland trains cannot alter their time to suit our convenience. There will be a big rush here in a day or two when the delayed mails come in "concluded the inspector," and everyone connected with the establishment will have to work night and day to dispose of the matter that is steadily accumulating."

The reporter thanked his informant for the news so courteously accorded and passing into the lobby without was soon one of a host of interested spectators who were eagerly watching the movements of one of the postal employés as he incribed the following legend in chalk on the blackboard near the delivery window:

JANUARY 13, 1888.

"Owing to the heavy snow blockades the Eastern mails will not arrive before next week. They are four days delayed now."

LOST BOYS.

A Fruitless Search for the Youthful Wanderers.

A late issue of the Monrovia *Leader* contains the following in reference to the lost boys:

It has been with feelings of intense interest and sympathy that the people of this vicinity have awaited news from the missing boys, C. F. Odeneal and Vincent W. Applegate, an account of whose loss on the mountains north of Monrovia was detailed in the last issue of the *Leader*. But every returning party has had the same story of fruitless search to tell.

The boys, both of whom were attending school, thought to spend their vacation by taking a hunting trip in the mountains, and left their home in the Duarte on the 28th of December, taking with them their rifles, blankets and provisions for three days. As they had not returned on the Sunday following their departure fears began to be entertained that all was not well with them, and on Monday, James Applegate, father of the younger boy, and a friend or two, went to look for them. As related last week, their camp blankets and knapsack were found, but no trace of where the missing ones might be. The coming of the storm made the search difficult and the small rescuing party returned for reinforcements. The heavy rain of Tuesday afternoon and night made it impossible to start back then, but on Wednesday morning, one week ago to-day, fifty earnest volunteers from Monrovia and Duarte started early to renew the search.

After reaching the camp that the boys had occupied, and tracing them to the edge of a precipice, where they had endeavored to light a fire, but failed, the party descended into the cañon, appearances indicating that the boys had taken that course. Further search here discovered a bottle in which the boys had enclosed a note, bearing their names and dated the 28th, the day which they left home, and on a blazed tree where some one had previously written a name, the boys had written their names. Near this point the cañon is branched in three different directions. The party was divided into three squads and each of the cañons explored. But the still heavy rains that continued to fall made the task difficult, and to add to the terrors of the situation snow on the higher portions of the mountains fell to a depth of nearly two feet, making it impossible to do but little satisfactory work.

This party was compelled to return, but Mr. Applegate did not give up hope, and he has faithfully prosecuted the search, with more or less assistance. For over eight days in succession he continued the search, sleeping in the mountains a number of nights, and a portion of the time amid the severe storms that prevailed. He lost hope of finding them alive, but has sought to discover their bodies, yet without avail.

In conversation with those who are familiar with the mountains in the vicinity of where the last traces of the missing ones were found, we learn that there are numerous crevices in the granite masses, which are only a few feet in width and in places as much as 200 feet deep. It is much feared that they may have fallen into one of these rifts. If such be the case their bodies may never be found. Indeed it would be next to impossible to help a live person out of some of these crevices, even with the assistance of ropes, so rugged are they.

It is a terrible blow to Mr. and Mrs. Applegate, as Vincent was their only son, and was a lad of bright promise, cheerful and affectionate. The uncertainty as to their fate makes it the more heartrending. The suspense and the great efforts made by the father have much exhausted him. The sympthy and assistance of all has been with them. Mr. Odeneal, the older of the boys, is a recent arrival from the East, having come out with I. B. Applegate, with whom he has lived for six years. He was 24 years old, and Vincent was but 14. Some thoughtless persons, through an evil propensity to gossip, circulated the report that Mr. Applegate and his son had a misunderstanding before he left home, and that he had run away. We have been requested to emphatically deny such a report, for there was never anything but the most perfect understanding between them, and he was a model son and exceedingly fond of home. These idle stories coming to their ears has intensified their grief. The reports published in some of the valley papers that the bodies had been found were purely sensational and without a shadow of foundation.

Last night Mr. Applegate and a number of friends went up to the mountains, and will continue the search to-day. The snow is partly melted away, and they hope their efforts will be crowned with success.

BOARD OF HEALTH.

Nomination for Health Officer Postponed.

The Board of Health met yesterday in Mayor Workman's office. Present, Mayor Workman, Clerk Patton, Dr. Hagan and Messrs. Humphreys, Collins, Hanley and Gibbs. The minutes of the last meeting were read and approved. On petition of R. W. Ellis for the Board to refund his check on street sprinkling bids, the Board recommended that the same be returned. Several bills were approved for expenditures contracted at the pest house. Communications from Geo. H. Peck were read concerning the importance of making necessary preparations for the storm rains; referred to Street Superintendent. The Board postponed the recommendation for Health Officer for two weeks and will not do anything concerning the contract for street sprinkling until next week. The Board then went into executive session.

The City Hall Again on Wheels.

At a meeting of the Special Committee of the Council yesterday afternoon, the New City Hall project materialized. The syndicate who own the St. Vincent property make the offer to exchange the block upon which the United States Military headquarters building now stands for the present City Hall property on Second street, and for the lot upon which the New City Hall has been begun on Fort street, with $150,000 boot. The syndicate estimate their property at $450,000 and the value of the city property at $300,000. They also *indicate* that property owners in the vicinity of the St. Vincent property will raise $75,000 of the $150,000 boot required from the city, together with such additional sum as would be necessary to compensate the contractor who is now building the new City Hall on Fort street for throwing up his contract. This, the promoters of the swap are understood to be willing to make one of the conditions of the transfer. As to the *modus operandi* of legally carrying out their proposition, the syndicate say that the city's property can be put up at auction, and they will bid $300,000 for it. If there are no other bidders they will take it at that. If more is bid for it by other parties the city will get the benefit of the surplus. When the whole subject was clearly explained to the special committee of seven yesterday, a vote was taken, resulting in five in favor and two, Mayor Workman and Councilman Cuddy, not voting. The latter gentleman, however, talks favorably of the scheme, and will probably vote for it when it comes before the Council. This shows that the acceptance of the proposition by the Council is a foregone conclusion, and that the project will be carried through, for there are enough Councilmen outside of the Committee who are in favor of the scheme to give the vote necessary to its passage. The friends of the proposition say that it will be a good thing for the city. They reason in this way: The 180-foot lot upon which the New City Hall on Fort street is being erected will be closed in on both sides by other buildings. It will have no grounds and inadequate light, and as a public building will be neither conspicuous, ornamental nor safe from conflagration. On the other hand, they say, the city will have the entire block, bounded by Sixth and Seventh and Fort and Hill, with a building already erected that will meet the wants of the city for several years. There will also be ample space upon which to add wings to the structure and for city jail purposes, and to render it architecturally an ornament to Los Angeles. We recognize the strength of the reasons thus advanced, but look upon the location as being inconveniently distant at the present time for a City Hall. In the course of three or four years this objection may be removed. But just now it is too far from the business center. Another objection we find to the scheme is the constant placing of the City Hall on wheels. It has been carted from Spring street to Second, from Second to Fort, and all this within a few years. Put it in motion again and the question will be, where is it going to stop? The next Council may take it into their heads to sell all the vacant lots in the St. Vincent block, and a succeeding Council may seize upon that fact to put it on wheels again. The same property and speculative interests that now want to cart it to Sixth street, may want to move it further a few years hence. The spirit of change, animated by the spirit of speculation, may thus defeat the object of permanent location indefinitely. The present location on Fort street is central, and that is a prime advantage. If the new scheme can be staved off till the City Hall now in course of construction is built, the chances will be largely in favor of its permanency there. We shall recur to this subject. In the meantime we cannot help looking with distrust upon this scheme, although those who favor it present plausible and seemingly strong reasons in favor of it.

The Great Hegira.

All comers from the East represent an unprecedented movement on foot to fill up Southern California with tourists and permanent settlers. The fact which inspired the recent raise in fares for passage from Missouri points to this State is simply the inadequacy of all present transportation facilities to meet the demand being made on the railroads by the army of people pressing this way.

A resident of this city received a letter from a friend in Massachusetts the other day, which stated that in one small town in the old Bay State there were at that time no less than seventy families who had all their belongings packed up ready to depart for Los Angeles, but that they could not begin their journey because the railroad had no means of transporting them across the continent. As things stand now, travelers have to take their turn to come out by cars from many places in the Eastern States.

One of the latest to return from the Atlantic side of the continent is Mr. Joseph D. Lynch, who for nearly fifteen years has spoken to the readers of the HERALD through its editorial columns. His story fully corroborates the tale of all who visit the East. The interest in this section is general. The entire community in all parts of the Union delight to hear of our State, and desire to visit it sooner or later. Whenever one encounters an old Californian, be it at whatever point it may be beyond the Rockies, it will soon be developed in a half-hour's conversation that the warmest spot in his heart is that where his love for California still lives. The brightest spot in his memory is that where the days he spent in the Golden State, by the sunset sea, is treasured. These old pioneers have done much and are doing much to crea e an interest in a State which can arouse so much enthusiasm in the mind of those who have been absent from her soil for twenty years.

The gist of the whole matter is that the great hegira to the Pacific Coast has but begun. The thousands who come this year are but the vanguard of the tens of thousands who will come next year. So in a geometric ratio the movement goes on until we shall see here at the end of another half decade the most densely packed population in the country.

SOME time since a citizen from Salt Lake City returned home from a visit to Los Angeles. A reporter of the *Tribune* published in the city of the Modern Saints, interviewed this person, and he gave a not very flattering account of this city and of the climate of Southern California. He thought the seasonal changes of the climate of Utah far preferable to the dead level monotony of our semi-tropic temperature. Our people will probably returned the compliment by a most enthusiastic preferance for their own sunny clime in view of the following glowing description of those seasonable Utah changes as explained more in detail by an official of the Central Pacific Railroad and given in an interview published in the San Francisco *Post* of recent date:

J. A. Fillmore told me yesterday that the railroad people had never so many difficulties to encounter in the way of cold as they have had lately. He tells me that the Central Pacific has eight engines frozen up at Kelton and four engines in another small place on the line.

"The cold," says he, "in Utah is something terrible; and the cattle on the ranges are suffering fearfully. The cold weather drives the cattle out of the mountains, and they bunch upon our railroad lines because the passing trains make the country along the track warm, and there is not so much snow. Our men have had to stop the trains and drive the cattle off the track. In some instances they have had to kill the cattle and drag them off the track before the trains could proceed. There are thousands of cattle bunched up along the railroad tracks." From this, it would appear that next year we shall be suffering from a cattle famine. The more one thinks of it the more is one inclined to believe that there is not much money in the cattle business on this Western slope. A gentleman who has been traveling through Manitoba and the other British Provinces says that when in Canada in October, beef cattle which were to be shipped to England, were selling at $50 a head. Rather different to what it is in the cattle countries of California and Oregon, where fine fat cattle have been bought on the range for $18 and $20 a head. And the raisers thought they were lucky."

THE HERALD'S suggestion calls for animadversion only for its possible remote bearing on the office of Chief of Police. It can have no present value. What the HERALD desires is that the Chief of Police be elected by a vote of the people. We have tried to think our esteemed contemporary not in earnest; but if we must regard the suggestion as made in seriousness, and for influence on the Freeholders, then it is not too soon to protest against it. The mere hint of such a mode of appointment of a Chief of Police, is enough to cause anxiety. Adopt that mode, and except by the rarest accident, the two worst men for the position, in the two great parties, would be nominated every time, and the worse man of the two would be elected. Sad confession, but the truth. It would not be in the power of the "better classes" to prevent such a scandalous disposition of the office. It is so extremely unwise and even dangerous a suggestion that we shall look to see the HERALD withdraw it or explain it away.—[Tribune.

Our contempory is as usual a bit obscure on this point. Coming as it does in comparison with some proposition from the *Times* touching the election of a Chief of Police in the present distress, it looks as if the *Tribune* had mistaken our advice to the Freeholders on a general principle, as having reference to the individual case now before the Council. But when our contemporary gets down to the general principle, it discloses a radical bias too common in the Republican party. The confession that the intrusting of the people with the election of a Chief of Police will result in the choice of the worst man in the country is so sad that we must decline to make it. We decline to think so badly of the people, and we decline emphatically to harbor the thought that this is the result of Republican-Democratic principles. We prefer to hold fast to the old dream—if dream it be—so fondly cherished by Americans, that the people are always to be trusted with their own affairs.

SOME of the up-country papers are resorting to lying meteorological tables for the purpose of prejudicing the mind of newcomers against the weather in Los Angeles. We find one of these in the San Francisco *Bulletin* of the 11th. This places the thermometer at noon on Tuesday, January 10th, at 29 degrees in Los Angeles; at 38 degrees in San Francisco; at 30 degrees in Sacramento and 33 degrees in Redding. How far this is from the truth will be seen by the reading of the thermometer of the War Department here at noon on that day. It indicated 40 degrees above zero. The full report for that day is as follows: At 4:07 A. M., 38 degrees; at 12:07, 40 degrees; at 7:07 P. M., 40. This table shows a lie on the part of the San Francisco paper 9 degrees in length. There must be malice in this kind of persistent misrepresentation, for it requires studious manipulation of the figures to produce it. When will the up-country papers learn the broad truth, that in trying to injure Los Angeles they hurt their own section?

MR. J. W. POTTS is contesting the seat in the Board of Freeholders held Mr. Vickrey. This and all other questions touching that Board should have most careful attention. By provision of the State Constitution, the charter, when once passed through the Legisleture, cannot be amended for two years, and then only by a very cumbersome process. This is the provision referred to:

The charter so ratified may be amended at intervals of not less than two years, by proposals therefor, submitted by legislative authority of the the city to the qualified voters thereof, at a general or special election held at least sixty days after publication of such proposals, and ratified by at least three-fifths of the qualified electors voting thereat, and approved by the Legislature as herein provided for the approval of the charter.

A GREAT many of the big ranches here have been broken up. There will be much less hay and grain marketed this season than there has been for nearly ten years past. The big tracts have not gone into the hands of actual settlers in their subdivision. The San Fernando, the Sausal Redondo, and many others where great crops of hay and grain have been harvested for years past, will probably lie idle this year. And all of this means a good price for all the products of the country. Small farmers will do well to improve all their land.

T. D. BEASLEY has published a very pretty little *brochure* of twenty-four pages and a map, which describe by well written letter press and elegant illustrations the City of Pomona.

THE EVANGELIST.

Rev. E. P. Hammond to Hold Services Here.

Rev. E. P. Hammond, the Evangelist, arrived in the city yesterday and next week will hold services in this city in two of the churches. As an evidence of the benefit of his work at Sacramento the following letter was drawn up and published:

"We, the undersigned, pastors of Sacramento, desire also to express our appreciation of the labors of Rev. E. P. Hammond, who has conducted the revival services during the last three weeks. Mr. Hammond commenced his labors with the children, and from the first his influence was remarkable. Under his addresses, and the personal appeals of Christians in the inquiry meetings which followed, many were bathed in tears, and with bowed heads or bended knees confessed their sins against God, and yielded their hearts to Jesus. In four days over 300 professed coversions and signed the covenant.

"The Pavilion, which was fitted up to accommodate about 2500 people, has been filled with adults at nearly all the evening services from the commencement, and on Sunday evenings hundreds were turned away, unable to find even so much as standing room about the door. A general interest has pervaded the city, and profound impressions have been made, which we believe will never be lost, though some may not yield at this time.

"Mr. Hammond's methods of conducting his meetings are somewhat unique, but after becoming familiar with them, as we have during three weeks of earnest co-operation with him in labor, we can testify that they have been greatly blessed by God in the conversion of sinners.

"Brother Hammond leaves Sacramento in a blaze of revival, and carries with him the love of all hearts. Our prayers shall follow him wherever he goes, that he may still have many years of service in his Master's vineyard, and that he may gather many sheaves for Jesus.

"J. E. Dwinell, Congregational: A. M. Hough, Methodist; J. L. Trefren, Methodist; C. Chamberlain, Methodist (Southern); H. Taylor, First Baptist; H. W. Reed, Second Baptist; H. H. Rice, Presbyterian."

SOUTH CUCAMONGA,

CALIFORNIA.

The Peer of Town Sites,

SITUATED ON THE

GREAT SUNSET ROUTE

—OF THE—

Southern Pacific Railway

—ABOUT—

Forty Miles East From Los Angeles.

Among the coming towns of Southern California, no town has been laid out on a more substantial scale with a view to future growth and prosperity than South Cucamonga, San Bernardino County, Cal.

Its location is one of the most charming in the

GREAT CUCAMONGA VALLEY,

Situated on the gently sloping plain, at an altitude of 952 feet above sea level, and within full view of the grandly towering peaks of the magnificent Sierra Madre range. Old Baldy, with his superb height of 9000 feet and hoary, snow-crowned tops, and Cucamonga, with its grand height of 5000 feet, together look down in majesty on the lovely valley at their feet, where, in most charming contrast, may be seen, far as the eye can roam, orchards of oranges, lemon, lime and olive, and vineyards laden with semi-tropical fruits, and fields clad with verdure and laden with perfume.

About three miles to the west may be seen the flourishing town and colony of Ontario; to the northwest, about the same distance, the old, world-renowned Cucamonga vineyard; to the north, the fine new town of North Cucamonga; to the northeast is the village of Etiwanda, and to the southeast Riverside, Colton and San Bernardino, and immediately to the southwest is the rich and prolific Chino ranch, South Cucamonga being the great central point.

The climate in any section being dependent largely in distance from the sea-coast altitude of surface, relation to mountains and general topography and contour, these conditions are perhaps as nearly perfect in Cucamonga as can be found anywhere in the world. The distance from the sea-coast assures freedom from fog-laden sea breezes, while the atmosphere is so pure, dry and exhilerating that those suffering from asthmatic and pulmonary troubles find it most invigorating and health restoring.

The water supply is inexhaustible, and, being from never-failing mountain springs, is absolutely pure. It is conducted in iron pipes, which are already laid throughout the streets of the town.

The soil is superior and rich sedimentary deposits, of extraordinary depth, is loose and easily worked, and retains moisture for a great length of time, requiring very little irrigation. Those who are thoroughly competent to judge have pronounced Cucamonga, taking soil and climate together, to be far superior to the famous Duarte and Riverside orange belt for raising oranges, lemons, etc., while it is entirely free from scale. The company also offers land in 10, 20 and 40-acre tracts, with water, adjoining the town site of South Cucamonga.

No new town in Southern California has brighter prospects for becoming a railroad center than South Cucamonga. Already it has two great continental lines, the Southern Pacific forming the boundary line to the South, the Atchison, Topeka and Santa Fe a short distance to the North, with two projected lines—one to Riverside and another to Salt Lake City.

A fine new passenger and freight depot, just completed by the Southern Pacific Railway, adds greatly to the comfort of travelers and general attractions. Over thirty trains pass through Cucamonga daily.

To secure the comfort of visitors, the fine new hotel belonging to the company has been opened under the management of a thoroughly competent hotel man. No expense has been spared in the appointments and furnishing to make it first-class in every respect, while the rates will always be reasonable.

The grounds surrounding the hotel and in the park adjoining have been tastefully laid out with all kinds of tropical shrubbery, ever-playing fountains, etc., by an experienced landscape gardener, and over 20,000 trees have been planted in the streets of the town.

A sojourn at this pleasant hotel, where within easy reach are the picturesque mountain trails, the grandly beautiful cañon and irresistibly charming scenery of mountain, glen and valley, will be found vastly conducive to health and happiness.

SOUTH CUCAMONGA

Is no new town in the midst of an unpopulated district, but is right in the centre of the finest improved portion of the Great Cucamonga Valley, and is bound to become a business centre.

Owing to its great richness the soil produces the finest oranges and lemons grown in the State, peaches, apples, pears, figs almonds and walnuts, and the finest of wine and raisin grapes. As proof of the great fertility of this section the old Cucamonga vineyard (one of the oldest and finest in the State), adjoining Cucamonga, may be mentioned, the wines produced there having a world-renowned celebrity.

Freight received at South Cucamonga depot, for the year 1887, amounts to the enormeus sum of 5,322,375 pounds; shipments from said depot for the same period, 2,039,025 pounds; thus showing the importance of this rapidly growing locality as a shipping point for the surrounding country.

A first-class livery stable will be opened immediately.

Telegraph, postoffice and express offices are already established, and the company intends shortly to erect a number of fine stores, private residences, and also contemplate the erection of a fine bank building. Lots have been set aside for school and church purposes, park and hotel grounds have been tastefully laid out, and over 20,000 trees planted on the streets of the town.

The lots are all good and perfectly level, and the company have placed them on the market at the lowest possible price, in order to enable those buying to realize a handsome profit within a short space of time. Compared with surrounding towns, there are no prices as low. In Ontario, the nearest town on the west, similarly situated lots are now selling at from $1000 to $4000.

A town backed by the extensive influence of prominent railroad officials, and such representative men as H. M. Hellman, W. H. Goucher, C. F. Smurr, T. B. Henry, John E. Jackson, A. A. Staunton, H. M. Russell, etc., whose determination it is to make it one of the most prosperous towns in Southern California, is assured.

The Cucamonga Land and Improvement Company, during the last few months, have been sparing no expense in improving and beautifying this splendid property and getting it ready for sale and being now assured of its great success as the coming town between Los Angeles and San Bernardino, have formally announced it on the market.

As the date of sale commences at 9 o'clock A. M. on and after

TUESDAY, JANUARY 10, 1888,

At the Company's office, 130½ West First street, Los Angeles, as well as through the agency of all reliable real estate firms in the city and throughout Los Angeles and San Bernardino counties, intending purchasers should not miss this opportunity to get in early and secure their lots and the first prices of the company.

IN THE SUPERIOR COURT,

STATE OF CALIFORNIA, IN AND FOR the County of Los Angeles. John H. Newton, Plaintiff, vs. Mary J. Newton, Defendant. Action brought in the Superior Court of the State of California, in and for the County of Los Angeles, and the complaint filed in said County of Los Angeles in the office of the Clerk of said Superior Court.

The people of the State of California send greeting to: Mary J. Newton, Defendant. You are hereby rexuired to appear in an action brought against you by the above named Plaintiff, in the Superior Court of the State of California, in and for the County of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service,) after the service on you of this summons, if served within this County; or, if served elsewhere, within thirty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain the judgment of said Court that the bonds of matrimony between said plaintiff and said Defendant be dissolved, because said Defendant has willfully deserted said Plaintiff, and for cost of suit. Reference is had to complaint for particulars. And you are hereby notified that if you fail to appear and answer said complaint as above required, the said Plaintiff will apply to said Court for the relief demanded in said complaint.

Given under my hand and the Seal of the Superior Court of the State of California, in and for the County of Los Angeles, this 6th day of January in the year of our Lord one thousand eight hundred and eighty-eight.

In the Superior Court.

STATE OF CALIFORNIA, COUNTY OF Los Angeles, ss. In the matter of W. M. Wilson, an insolvent debtor. Adjudication of Insolvency, Sec. 6, Act of April 16, 1880. W. M. Wilson having filed in this court his petition, schedule and inventory in insolvency, from which it appears that he is an insolvent debtor, the said W. M. Wilson is hereby declared to be insolvent. The Sheriff of the county of Los Angeles is hereby directed to take possession of all the estate, real and personal, of the said W. M. Wilson, insolvent debtor, except such as may be by law exempt from execution, and of all his deeds, vouchers, books of account and papers, and to keep the same safely until the appointment of an assignee of his estate. All persons are forbidden to pay any debts to the said insolvent, or to deliver any property belonging to such insolvent to him, or to any person, firm, corporation or association for his use; and the said debtor is hereby forbidden to transfer or deliver any property until the further order of this court, except as herein ordered.

It is further ordered, that all the creditors of said debtor be and appear before the Honorable Wm. P. Gardiner, Judge of the Superior Court of the county of Los Angeles, in open court, at the court-room of said court, in the Jones Block, on New High street, Los Angeles city, in the county of Los Angeles, on the 10th day of February, 1888, at 10 o'clock A. M. of that day, to prove their debts and choose one or more assignees of the estate of said debtor.

It is further ordered, that the order be published in the Los Angeles DAILY HERALD, a newspaper of general circulation, published in the county of Los Angeles, as often as the paper is published, before the said day set for the meeting of creditors.

And it is further ordered, that, in the meantime, all proceedings against the said insolvent be stayed.

Dated January 7, 1888.

A. W. HUTTON,
Judge of the Superior Court.

Deaf Mute Marriages.

Professor Bell infers from the frequent recurrence of peculiar surnames in the catalogues of asylums for the deaf and dumb that certain families are prone to that calamity. In the American Asylum at Hartford among 1171 names 407, or more than one-third, occur more than once. Of this 407, 214 occur twice, 81 three times, 45 four times and a few from five to thirteen times. A similar showing is made by statistics of the Illinois Institution for the Deaf and Dumb. The heredity tendency is supposed to be herein indicated. Of 2106 pupils at Hartford, 693 had deaf-mute relatives, and 29 had one or more children who were so afflicted. Statistics from six other institutions for deaf-mutes show an average percentage of 29.5 pupils who have deaf-mute relatives, 13.8 per cent of these pupils being non-congenitally deaf-mutes, 54 per cent congenitally deaf mutes. Of the estimated 21,743 sporadic cases of deafness in the United States, 8380 are said by Professor Bell to be congenital, and of the 12,135 who have deaf-mute relatives 9989 are congenital. The total number possessing deaf-mute relatives is estimated at 20,474. It is stated, furthermore, that 78.6 per cent of the deaf-mutes who marry choose consorts who are also deaf-mutes, and 10.1 per cent of the children born of such marriages are deaf-mutes. — [Philadelphia Medical Register.

Christmas Antiquities in Rome.

A correspondent writes from Rome to the *Frankfurter Zeitung*: "Some time since, owing to the exertion of the Passionist monk, Father Germanus, two chambers of a Roman house of the fourth century were discovered under the high altar of the church of SS. John and Paul, on the Coelian Hill, Quite lately another large chamber has been discovered beneath the nave of the church, which seems to have been the *tabularium* of the house. The traces, very well preserved, are visible of what must have been valuable paintings representing wild beasts, seahorses and other decorations. Especially remarkable are two pictures of unquestionable Christian character. One represents the Patriarch Moses in the act of removing his shoes before approaching the burning bush—a subject which is also represented in one of the pictures in lhe catacombs of Calixtus. The other represents a woman praying; she is clad in a tunic, with a veil on her head, a necklace of pearl, and arms outstretched. This is believed to be the first specimen of a Roman house in which scenes of a Christian character have been found represented. Such subjects have hitherto been found only in the catacombs."

Why will so many people allow themselves to go moping about, low-spirited, sallow complexioned, full of bile, when a few doses of Frese's Hamburg Tea is an absolute specific for all complaints of this class.

---:THE HEMET LAND COMPANY:---
Now offer for sale 7000 acres of the Best and Cheapest Land in California at $150 per acre. Easy Terms. The heart of the magnificent San Jacinto Valley, San Diego County
The only great valley as yet undeveloped and cheap. The richest of soil, abundance of water, and an elevation of 1600 to 1900 feet above sea level, making a climate that is delightfully warm, bracing and dry; the perfect climate for all throat and lung troubles.
The Grandest Water Supply in the State!
Eighteen miles up in the mountains, at an elevation of 4375 feet, a granite dam costing $130,000 is being constructed in Hemet valley, to hold the water which is supplied by the immense snow shed of Mt. San Jacinto, 10,987 feet high, Mt. Tocwish and Mt. Herke. This will form LAKE HEMET, covering 600 acres at an average depth of 65 feet, and containing 6,000,000,000 gallons, or 9000 miner's inches of water, enough to irrigate more than 100,000 acres of land. This water will be delivered in 22-inch iron pipes, under 723 feet fall. An inch of water guaranteed to every eight acres, and water right conveyed with every acre sold.
NO FOGS! NO FROST!
Unsurpassed for the finest Naval Oranges, Raisin Grapes, and all Deciduous Fruits. South San Jacinto will be the city of Northern San Diego County. Broad streets and avenues. In the center is a beautiful hill of 600 acres reserved for a park, upon which this winter 100,000 forest and ornamental trees, already purchased, will be planted, surrounded by a boulevard four miles long, 100 feet wide, with double avenue of trees. Brick hotel, brick offices and stores now being erected. $500,000 to be spent in improvements this coming year. Everything that unlimited capital can do will be done to make a model city.
Climate, Soil, Water and Capital have made Southern California,
and SOUTH SAN JACINTO has them all, as no other one place has. It immediately adjoins San Jacinto 18 miles east of Perris, on the Santa Fe, and 14 miles south of San Gorgonio on the Southern Pacific, and at present reached by daily stages. The Santa Fe is now actually building direct from Perris. Get in before the railroad boom.

VALUABLE DECISION

By Judge Ross, of the United States District Court.

The following interesting decision by Judge Ross, of the United States Court, in the case of Hughes vs. Cawthorn, is presented:

In the Circuit Court of the United States, North Circuit, Southern District of California. Hughes vs. Cawthorn, No. 23.

There is but a single question in this case, and that relates to the boundaries of the Rancho Tujunga, a Mexican grant, confirmed and patented by the Government of the United States. At the trial it was conceded by the respective parties that if the land in controversy is to be south of the northerly line of the rancho the plaintiff is entitled to recover, otherwise not. There is no dispute in respect to the starting point of the Tujunga, which is also the third station of the adjoining rancho ex-mission of San Fernando, and is situated at the mouth of a cañada on the south base of the San Fernando Mountains. From this point of the beginning the line, according to the patent, runs along the base of the San Fernando Mountains a given course and distance to the stake station; thence a certain other course and distance to a stake station; thence a certain other course and distance to a stake station; thence a certain other course and distance to a stake station; thence a certain other course and distance to a stake station; thence a certain other course and distance to "a sycamore six inches in diameter marked T. 8 Station;" thence "south 11° 45 east, eleven chains to Tujunga creek, 20 links wide, course west, thirty-three chains to a stake station;" thence "south 47° 30 east, at seven chains across a dry arroyo, 30 links wide, course west, thirty-seven chains to a stake station;" thence "south 22° east, ninety-six chains to a stake station;" thence "south 80° east, ninety-six chains to a gray granite rock, eighteen inches long, twelve inches wide and two inches thick, station, on the southwest slope of a high mountain;" thence etc.

That there is a mistake somewhere in the description, is admitted on both sides. If, commencing at the starting point, the line be run according to the course and distances given, it will not follow the base of the San Fernando mountains, as in the patent it is declared to do, but so far deflects into the valley as that when station six is reached it is fixed at a point not, as declared in the patent, on the south base of a mountain, but 18 chains therefrom, in the valley, and within 100 feet of the Tujunga Creek, and opposite which point the Tujunga Valley, bearing east and west, is not, as stated in the patent, about fifty chains wide, but thirty-five chains only.

Still following the courses and distances given in the patent, the line between stations 6 and 7 continue in the valley, crossing to the south of the creek, and between stations 7 and 8, crosses the same creek twice.

As shown in the plan of the rancho annexed to the patent and forming part of it, the line from station 6 to station 8, follows the mountains and does not cross or touch the creek at all.

In running from station 8 to station 9 the line, according to the description given in the patent, at eleven chains crosses the Tujunga creek, course west, 20 links wide, and in running from station 9 to station 10, at seven chains crosses a dry arroyo 30 links wide; and the plat annexed to the patent so represents it.

Continuing the course and distances as given in the patent to station 12, that point is found not as declared in the patent, on the southwest slope of a high mountain at a gray granite rock, but far out in the valley, about eighteen chains from a gray granite rock, which, according to the testimony in the case, is found on the southwest slope of a monntain, and which is one of the boundaries of the adjoining Rancho La Cañada, and a point from which the adjoining Government land was surveyed. Of the rock in question, Lecouvreur, the surveyor who made the survey of the Rancho La Cañada about the year 1878, said at the trial: "It was a very conspicuous rock, and it was naturally such as a surveyor would take as a boundary mark, because there were no large rocks to be seen there anywhere."

The evidence shows that this rock has for many years been recognized by the people in the neighborhood as a common point in the boundaries of Ranchos Tujunga and La Cañada, and that it was so recognized by the Government surveyors in making the survey of the Government land in the viciniiy, is beyond dispute Narway, the United States Deputy. surveyor who made the survey of the Government land, testified on the trial of the case to the effect that, when he did so, which was a number of years ago, he ran from the gray granite rock in question back to Station 11 of the Tujunga, and there found the old monument and thus satisfied himself of the true location of the rock.

But what to my mind conclusively establishes that the gray granite rock referred to in the evidence, is the gray granite rock described in the patent, and at which station 12 of the Tujunga is thereby fixed, is, that by accepting that as station 12 reversing the courses and ditches the line so run answers all of the natural calls of the patent and conforms to the plat of the survey therein embodied. It is true that at eleven chains to the southeast of station 8, as thus located, the Tujunga creek is not now found, nor is there now at that station a sycamore tree. But the evidence shows that the Tujunga creek is a changeable stream, discharging in the rainy season tremendous volumes of water, and while it is, along the easterly line of the Rancho, confined by the hills to somewhat narrow limits, yet, within those limits, it, like many other California streams that serve as an outlet for a large water shed, often shifts. The stream of this year, therefore, may not be, and often is not, the stream of the next. In traversing by the reversed courses and distances given in the patent between stations 9 and 8 the line strikes what is now a narrow alfalfa patch, which is just eleven chains southeast of station 8, as located by such reversed courses and distances, and which is lower than the present bed of the stream and within the limits of the Tujunga cañon, as defined by the hills. I am satisfied that this alfalfa patch was the bed of the Tujunga creek at the time of the government survey of the rancho.

At station 8 as thus located there is now no sycamore, but the evidence shows that it is located in one of a number of small cañons running northerly from the Tujunga cañon, in some of which, similar in all respects to that in which station 8 is thus located, sycamore trees are now standing and growing, and in some of which stumps of others that have been cut down are still standing; and two witnesses, whose veracity there is no reason to doubt, testified that during the trial of this case they went into the cañon in which, by the reversed courses and distances from the grey granite rock, station 8 is located, and about one hundred yards below the point found some small limbs and branches of sycamore, some of which were partly imbedded in sand. They testified further that the limbs and branches did not have the appearance of having been put in position for a purpose. As it is a matter of common knowledge, as well as one of evidence in the present case, that the cutting of wood in the mountains and cañons hereabouts is not uncommon, it is not unreasonable to conclude, if other circumstances sufficiently combine to locate station 8 in the cañon in question, that the sycamore called for in the patent at that station, was subsequently cut down and that the sycamore branches above referred to came from it.

Continuing the reversed courses and distances from station 8, the line runs along the base of the mountains, as represented on the plat annexed to the patent, to station 6, which, as thus located, answers the calls of the patent almost exactly. Most of the witnesses who testified on the point, testified, and a photograph of the premises introduced in evidence shows clearly, that station 6, as thus located is at as near the base of a prominent mountain, which runs out from the range of mountains, while it is true that the base of a mountain is an indefinite call, yet, at the point now in question, there is a very narrow slope to the south—in width about 300 feet, between the mountain itself and a somewhat precipitation bluff, and opposite the point on the slope where the reversed courses and distances locate station 6, the Tujunga Valley, bearing east and west is just fifty-three chains wide. I think therefore that station 6, as thus located, well answers the call of the patent which declares it to be "on the south base of a mountain, opposite which point the Tujunga Valley, bearing east and west, is about fifty chains wide."

Still following the reversed courses and distances the line runs along the base of the San Fernando mountains to station 1. If, however, from station 1 the line be run in accordance with the course and distance given in the patent, it is found to terminate a number of chains to the north of the acknowledged point of beginning. But as that is a well known and admitted point in the boundary and as the grey granite rock is another point therein well and, I think, thoroughly established, and as the line, running from the point of beginning in accordance with the courses and distances given does not conform to a single one of the natural calls, whereas by going to the grey granite rock and reversing the courses and distances given all of the natural calls are answered, the conclusion I think is clear that the mistake is in the first course and distance. But as the point of beginning is a known and conceded point and station 1 is fixed by the reversed courses and distances from the granite rock, agreeing as they do with the natural calls, the course and distance between station 1 and the point of beginning must give way and the line be closed by a straight line drawn between the two ascertained and known points.

The fact that the mistake is in the first course and distance is further shown by the circumstance that, commencing at the point of beginning and following the course and distance given, the line does not as the patent declares it does, run along the base of the San Fernando mountains, but runs into the open valley the distance given, and then, still in the open valley, a number of other and varying courses and distances, without any apparent reason for the frequent changes of course, resulting in locating station 6 not, as stated in the patent, on the south base of a mountain, but in the valley and at a point opposite which the Tujunga valley is not, as declared in the patent, about fifty chains wide, but thirty-five chains only; whereas by following the base of the mountains, as declared in the patent, the reason for the changes of the course are obvious, being caused by the meandering of the mountains, and station 6 is so located as to answer almost exactly the patent call.

The location of the ranch house in the field notes is only with respect to the west line of the rancho, concerning which no dispute arises.

My conclusion is that the land in controversy is within the true lines of the Tujunga patent and as a consequence, that plaintiff is entitled to judgment.

It is so ordered. Ross,
District Judge.

THE HOTEL.

The Excavation Progressing at a Rapid Rate.

The excavation of the lot for Tenth street hotel, under H. B. Marshall, is progressing finely, and a large force of men is kept constantly at work. When it is taken into consideration that this hotel extends 300 feet on Main and Los Angeles streets and 333 feet along Tenth street, some idea of the immense amount of excavation to be done can be formed.

This will undoubtedly be one of the finest and largest hotels in the United United States. It will contain 680 rooms of every description to accommodate families, which will be heated with illuminating gas in open grates, and will have many bath-rooms containing the most approved and modern improvements. The whole building will be lighted with electricity, and everything that can be done to add to the convenience and beauty of the drawing-rooms, parlors and anterooms will be done. Some of the best hotel men in the United States have helped to arrange the plans for this hotel, and every foot of space from cellar to garret has been carefully considered and assigned to its most profitable purpose. So evident are the necessities of such a hotel that the stockholders consider their stock equally as safe as any railroad or bank stock in Los Angeles.

A Coming Attraction.

The Boston Howard Athaneum Specialty Company will open at the Grand Opera House on Tuesday next. The sale of seats for the engagement is already very large and crowded houses will be the rule. A San Francisco paper speaks as follows of the performance there:

Hundreds were turned away matinee and night from the doors of the Booth Street Theater, and every inch of space was taken. The Boston Howard Athenæum Specialty Company was the attraction, and it proved a very popular one. Many of the performers are the cleverest we have seen of the kind and none are bad. Le Claire, the juggler, has a wonderful knack of balancing and does some new trick. The bell imitations of the Fonti-Boni Bros. are good and Sweeney and Ryland make a good deal of fun. The Irwin sisters are together again and give a neat sketch, which is a trifle too long. Adams Casey and Howard sing so well that we wonder why they bother to bring their old musical chestnuts out with them. Miss Lizzie Daly is the most wonderful dancer we ever saw in petticoats. She is a mixture of Arnold Kirafly and Bonfanti and a little ahead of both in their own lines. Rezene and Robeni, said to be from the Folies Bergeres, but convicted by a most horrible cockney accent of being born along Ratcliffe Highway or the Lambeth Potteries in London, do a rather clever and rather vulgar knock-about act, but it takes with the audience. The best is kept for the last, and unwisely so, because people never sit down to see the last of a specialty show. The four Arab acrobats are simply marvelous.

There is a sound so hollow in what Mr. James G. -:- REDONDO BEACH, -:-

SIXTEEN MILES SOUTHWEST OF THE CITY OF LOS ANGELES, IS, WITHOUT DOUBT, THE FINEST PLACE ON THE CONTINENT FOR A SEASIDE RESORT, AND THE enterprising company is doing all that ample means and broad ideas suggest to fully realize the grand result that nature has made possible. Two miles of water front, aligned like a half-moon bay, of which the northern horn is occupied by a remarkable fine pebble beach; the southern part by the very best bathing beach anywhere to be enjoyed; while the middle portion is an abrupt shingled shore, bordering water so deep that the largest ships may lie free from ground swell within a stone's throw of land. Rising behind this frontage a peculiarly beautiful rolling land is backed by low but commanding hills, something less than a mile from shore and in amphitheatre form, so that the place is a panorama unto itself from every point of view. The higher grounds look back upon the city of Los Angeles and the Sierra Madre Range, and the ocean view in the opposite direction is set between rocky headlands that hold it as in a frame. A salt spring lake, half a mile in length, whose waters are much more dense than those of the sea, presents opportunities for quiet boating and peculiarly heathful bathing not parallelled at other places. The soils are remarkably fertile; the fresh water supply, to be piped throughout the tract, is pure and abundant, and the sub-soils are open and absorptive. So that beautifying of grounds is of easy accomplishment, and the healthfulness of the place is assured.

A hotel of the most ample dimensions, picturesque effects and perfect appointments, is to be built adjoining the beach, on a site terraced to the water-front promenade, and flanked by a park which extends to the bathing beach on one hand and on the other to the IRON PIER, costing over $100,000, reaching into deep water and arranged for landing of boats of every description, from the mosquito yacht to the trans-ocean clipper.

THE CHAUTAUQUA ASSEMBLY.—Grounds for the accommodation of the Chautauqua Assembly of Southern California have been set aside, and here the management are about to build an amphitheatre and other permanent structures.

THE OUTLOOK.—The rapid development of REDONDO BEACH, as a place of local pleasure resort and health-giving homes, and as a tourist's objective point from far and near, is now assured. Its deep-water facilities, protected frontage, railway approachability and fine back country insure its future importance as a commercial point. It is a most remarkable place, in that it really admits of a combination of pleasure with business, as an examination will prove to any one of judgement. ☞For particulars call or address

The Bon Ton Bath Rooms

And Tonsorial Parlors, O. L. Susand, Proprietor, are fitted up in perfect taste and neatness. The many artists employed by Mr. Susand are noted for their dexterity with the razor; and for dressing and cutting the hair, shampooing, etc., the Bon Ton has no equal. The bath rooms, which are noted for their cleanliness, are all newly enameled, and to really enjoy a most luxurious bath, hot or cold, with shower, one must try these. The proprietor has likewise especially put up elegant new enameled baths for ladies and children. BON TON, 235 and 237 North Main street.

Stranger!

You should not miss the magnificent view obtained from Euclid Heights. The eloquent contrast between the snow-capped mountains and verdant Santa Ana valley beggars description. Take your field glass and attend the auction next Tuesday, January 17th, at 1 o'clock. H. H. Matlock & Sons, Auctioneers, 111 West First street.

Santa Fe Springs.

For sale, the Murray Tract of 100 acres, adjoining this florishing town on the north. A railroad will be in operation within 60 days, bringing Santa Fe Springs within 30 minutes of the city. Will be sold as a whole for $400 per acre, on easy terms, with suitable reduction for cash; or, will be sold in tracts of from 4 to 10 acres. Investigate this, Murray, Power & Co., Fresno, Cal. Chas. Cassat Davis, Attorney, Los Angeles, Cal.

At Auction, January 17, 1888,

At 1 o'clock P. M., at Euclid Heights. Remember there is but one Euclid Heights on Boyle Heights, and this one we heartily recommend to all. There are fifty-two elegant lots for sale at auction on the day mentioned above. Free conveyance from our office on day of sale to the tract. Don't fail to attend. Bring your friends. H. H. Matlock & Son, 111 West First street.

Duarte.

A trip to Duarte, a drive through its orchards, is necessary to all Eastern visitors. They will then know what has given its oranges their fame and its foothills the palm for attractive scenery. No spot equals it in capacities for beautiful homes, yet property is held at less than one-third of its neighbors, prices. All trains on the Atchison railroad stop at station.

Auction Sale of Euclid Heights,

Tuesday, January 17, at 1 o'clock P. M., by H. H. Matlock & Son, auctioneers, 111 West First street.

The station of Euclid Heights is high and commands a magnificent view. Euclid Heights is adjacent to Boyle Heights, one block from Stevenson avenue, now being graded at a cost of $100,000, preparatory to laying a double track cable line connecting with Second street line and running to the new Presbyterian University. This elegant tract lies also within a few minutes' walk of Aliso street car line, which is to be converted into a cable line. For residences this tract connot be surpassed. Free conveyance to ground on day of sale.

Beaumont!

Call at Beaumont headquarters, No. 9 N. Main street, for one of those beautiful maps of this charming and popular locality, where you will find the cheapest and best property for home and investments on the market.

Dealers and Consumers of Beer

Will find it to their advantage to call on Philadelphia Brewery, Aliso street, for the best lager or steam-beer, good on draught for weeks, at lowest prices. Bottled lager $1.20 per doz., if bottles returned. Delivered to any part of the city. Telephone 91.

MISCELLANEOUS.

CHICAGO $13 (LIMITED.)

Lots in the new town of Chicago Park (South Monrovia) are now on sale for the nominal sum of $13 purchase price, and $15 conditional, bonuses as follows:
$5.00 cash.
$5.00 February 10, 1888.
$5.00 March 10th, Provided the track is being laid and part of rolling stock is delivered for the Monrovia and Chicago Park Railroad.
$5.00 April 10th, Provided twenty-five buildings are up or in course of erection in the town.
$5.00 May 10th, Provided school building, church and hotel are under course of construction, and street car line completed and in operation.
$3 00 on delivery of deed, together with printed copy of abstract, subject to comparison with the original.

Thus, if improvements are NOT made purchasers secure their lots at $13.00 each, and if improvements ARE made they then cost less than acre property north, south and west of tract.

How can I do this? Listen: I own nearly 1000 acres of land about nine and a half miles east of Pasadena and one and one-fourth miles south of Monrovia station, and adjoining "Lucky" Baldwin's ranch, and nearly joining the world-renowned Duarte orchards. About 400 acres of this is barley; part is an old cornfield; part is wild, and there are two small orchards. I intended this for colony purposes, but have finally decided to lay out a suburb to the lovely city of Monrovia, sell off the lots at low acreage price, and make my money out of the five and ten acre lots adjoining. Many people consider town property entirely too high, and hesitate to pay as much for a lot as their house will cost, so I expect this sale will result in the building of a lively center surrounded by lovely homes in this loveliest part of the San Gabriel Valley.

The townsite is laid out on the deeded portion of the tract and is almost perfectly level and nearly free from stone. Splendid fruit land and no alkali. A mountain wash finds its way across the tract. I have reserved one hundred mason and builders' lots for wash bed, to which it will undoubtedly some day be confined. Some of the lots to be sold are in the present wash, but I guarantee over one thousand of them to be beautiful rich loam (not 'dobe), almost absolutely free from stone; the remainder, outside of the wash, are lighter soil, but smooth, somewhat gravelly (not stony), and better land than thousands of acres of $500 per-acre land in the same valley.

I do not guarantee that improvements mentioned above will be made, but I am willing to forfeit over one-half of the insignificant $28 per lot if they are not made, besides making a sad failure of my sale of adjacent land.

Lots are numbered from north-west corner in routine, for purpose of receipting only. Twenty-three lots are reserved for school grounds, churches, free library, hotel and three business houses already agreed upon. These lots are designated by letters. When all other lots are sold a meeting of lot owners will be called, a map of tract placed upon the wall face in, a target-gun placed in the hands of some poor marksman, and when he or she succeeds in hitting said map the lot perforated by the bullet shall be lot one and will follow former routine of numbering excepting one hundred reserved wash lots and lettered lots. This will preclude the possibility of any unfair treatment of purchasers, and will be the quickest way of deciding the matter. After the lots are thus properly numbered all owners are particularly requested to at once plant trees in front of their respective lots, which in short time will make Chicago Park a park indeed.

For one dollar per lot I will have three trees planted in front of lots outside of wash; and taken care of for two years.

A CARD.

I beg to intimate that Alex Forbes is associated as a partner with me; that the business in future will be carried on under the firm name of Blackman & Forbes, Expert Accountants and Auditors, at the office, 117 New High street, Los Angeles. Mr. Forbes has had large and varied experience, both professional and commercial, before coming to this city. During his residence here he has been principally engaged in adjusting, balancing and auditing Land & Water Corporation books, and is acknowledged to have a thorough and extensive acquaintance with such work, to which in future we will devote our best abilities. As public auditing is daily becoming more necessary, a great part of our time will be given to such work. The investigation and adjusting of accounts, opening, posting and balancing books, shall have prompt attention, while secrecy and care can fully be relied on. My own professional standing is now so well known that I make no comment, but thank all my numerous clients for past favors, with the hope that they will extend the same to the new firm. W. R. Restores the sense of taste and smell, removes bad taste and unpleasant breath, resulting from catarrh. Easy and pleasant to use. Follow directions and a cure is warranted by all druggists.

RECOMMENDED.

CAPTAIN CHARLES L. DIMON, of New York City, formerly special agent of the Phoenix and Home Insurance Company at San Francisco, Cal., says: "I had been troubled with Chronic Catarrh for twenty years. A friend in Woodland, Cal., recommended your California CAT-R-CURE. I procured a jar, having but little faith in its curative properties; but I must say, after using three jars, I am cured of that disgusting disease. Inclosed find $5, for which send me California CAT-R-CURE for some friends, who are sufferers."

THE HERALD

Daily and Weekly,

The Leading Journal

—OF—

SOUTHERN CALIFORNIA.

Established Fifteen Years Ago.

Published Under One Management and Policy Continuously Ever Since.

THE LOS ANGELES HERALD IS BY ALL ACknowledged to have been the prime factor in the discovery and making known of the resources of this section. To its sagacious outgivings more than to any other agency our marvelous development is attributed.

THE HERALD has from its inception watched with a single eye the budding industries of this portion of the State. For each good enterprise this journal has at all times had a word of cheerful encouragement. In spite of the skeptical, it has survived to see all of its earlier predictions fulfilled to the letter.

THE HERALD to-day takes the lead in all respects among the papers of Southern California. Its first care still is the material, intellectual and social interests of its section. It aims to be truthful rather than over-zealous in its publication of news; to be conservative, rather than over-sensational, in its policy; to be clean and decent, respecting the sacred precincts of the home and fireside, rather than indecently salacious in its tone.

THE HERALD gets all the news from all quarters of the globe with promptness, accuracy and dispatch. Its local staff is energetic and well-trained to miss nothing of real importance to its readers. It is always alive to all public enterprises.

THE HERALD still takes pride in aiding any legitimate material, intellectual or social movement which will benefit the people. No other journal in this section approaches it in these important respects.

NEWS NOTES.

Nothing was done yesterday in the United States District Court except the approving of several witnesses fees.

The excavation of a lot on the corner of Franklin and Fort streets for a business block was commenced yesterday morning.

Transfers of real estate yesterday amounted to $171,060, and were 121 in number. Of these 21 were for nominal considerations.

The following persons were yesterday licensed to wed: Jacob M. Cox to Laura F. Gordon; Joseph J. Northmore to Henrietta M. Smoot; Benjamin L. Lackare to Ollie M. Furbeck; Morgan W. Coleman to Loretta V. Donley.

Miss E. G. Sawtelle, a promising young artiste, has just finished a portrait of the surviving brother of Col. W. W. Hollister. It is a truthful copy of the subject and betrays aptitudes in the young lady to shine in the profession she has chosen.

We had a call to-day from Mr. J. G. Warren, a young journalist who is about to start a paper at Oceanside, in San Diego county. He has named it the *Planet*, and it will be Democratic in politics. We shall be pleased to welcome the new paper into the arena of Democratic journalism.

Pasadena is to have a $25,000 Episcopal Church, which in elegance it is claimed will eclipse any yet built by that denomination in the State. Among over twenty plans and specifications submitted to the building committee, one drafted by Earnest Coxhead of this city has been accepted and work will at once be commenced.

Personal Mention.

Judge E. B. Mastick, of San Francisco, is in the city.

Rev. W. J. Chichester, of the First Presbyterian Church, is at Long Beach.

Mr. A. Newmark, of the firm of Newmark & Co., has gone to San Francisco.

Charles Kohler, Jr., of the firm of Kohler & Frohling, has returned to San Francisco.

John Morongo, interpreter for the United States Indian agent, was in the city yesterday.

Miss H. L. Dibble and R. H. Hoag left yesterday on the steamer Eureka for San Francisco.

Col. C. J. Stifil, of St. Louis, has returned home by the way of Texas and the Southwest.

H. G. Wilshire of this city, George Wilshire and wife, and Nat Wilshire, of Cincinnati, are at Long Beach.

F. S. Chadbourne, the furniture merchant of San Francisco, is stopping, with his family, at Long Beach.

Eugene Meyer, cashier of Lazard Freres, bankers of San Francisco, and formerly one of the proprietors of the City of Paris, of this city is in Los Angeles.

Criminal Notes.

Nellie Thorn was fined $10 for disturbing the peace.

Chas King, for disturbing the peace, was committed for 15 days in default of $15 fine.

Jesse D. Parson entered a plea of guilty to a charge of fast driving, and was fined $1.

Jacob Hinkle, charged with a like offense, was held for an assault with a deadly weapon.

The trial of Dr. Hagan for fast driving was set for Saturday, January 14th, at 9:30 A.M.; bail, $8.

A complaint was filed and warrant issued for Jas. McLaughlin, charging him with an assult with a deadly weapon.

Thomas O'Campo was tried by jury for disturbing the peace and found guilty. He will be sentenced to-day at 10 A.M.

The examination of Geo. F. Wiley, for resisting an officer, was set for Friday, January 20th, at 2 P.M., with bail fixed at the sum of $300.

The examination of Thos. Redman and Lorence Flores for burglary was set for to-day at 2 P.M. They were committed in detault of $1000 bail each.

In Justice Taney's court Henry Kegle, charged with an assault with intent to murder, who had his examination a few days since, was discharged.

Frank Stewart stole two revolvers at San Jose and was convicted there for petit larceny and committed to the Los Angeles County Jail, where he will spend 680 days.

Frank W. Lawton and John Young were examined before Judge Austin yesterday, on a charge of petit larceny. Lawton was discharged and Young committed for 25 days in default of $25 fine.

George Williams, alias "Liverpool Dutch," was arrested yesterday in this city by Constable Roberts on a warrant from Fresno, where he is is wanted for a burglary, and he was taken there by Constable Morgan.

Compton, the man who was arrested by Constable Fred Smith for pocket-picking at the race track during the fifty-mile race, was sent on Thursday to San Quentin for one year. It has since transpired that he is the celebrated robber, "Baltimore Patch," and the authorities have sent for his photograph.

Followed After.

About a week ago the death of Mr. F. Stecker, of the New York Brewery, was announced. At the time of his death Mrs. Stecker was very ill, and fearing that the news of his death would have a bad effect on her health she was not informed of it until three days afterward. After being told of his death she grew worse, and last night about 11 o'clock she departed this life, just six days after her husband. The funeral will probably take place to-morrow from her residence.

Undelivered Telegrams.

552----Acres of Improved and Unimproved Land----552

AND HOUSES, BARNS, OUTBUILDINGS AND 100 HEAD OF CATTLE ON

Tuesday, January 17, 1888.

552 ACRES OF THE GOODWIN RANCH HAS BEEN SUBDIVIDED INTO 5, 10, 20 AND 60 ACRE TRACTS. This exceptionally choice piece of land is situated five miles west of Santa Ana in one of the most beautiful and productive valleys in the State. Santa Ana valley is 20 by 30 miles in area, and contains 300,000 acres of fertile and wonderfully productive land; all the products of temperate and semi-tropical regions are here successfully cultivated. This particular piece of land offers extraordinary inducements to home and land seekers, as well as speculators, and is especially adapted for raising corn, grain, potatoes, apples, alfalfa, stock raising; also many choice gardening lands. This soil will produce 100 bushels of corn per acre without irrigation, 700 sacks onions per acre and over 200 sacks of potatoes. Better known as the famous peat land of the Rancho Los Bolsas. Abundance of artesian water can be had at a depth of 125 feet. Four large artesian flowing wells on the land. This tract lays in close proximity to Santa Ana, and as every one knows that Santa Ana is no outside town, but is a growing, thriving, substantial city of 5000 inhabitants, with every indication of reaching 10,000 in three years. Its present growth is exciting the wonder and admiration of all Southern California, being located on the S. P. R. R. and junction of the A., T. & S. F. Co.'s lines, as well as two steam motor street railroads under construction.

CATARRH!

Throat Diseases, Bronchitis, Asthma, Consumption,

Together with Diseases of the Eye, Ear and Heart Successfully Treated by

M. HILTON WILLIAMS, M. D. M. C. P. S. O.

275 N. MAIN STREET,

A few doors south of the New Post Office, Los Angeles, Cal.

All diseases of the respiratory organs treated by the most improved medicated inhalations, combined with proper constitutional remedies for the liver, stomach, blood, etc.

CATARRH.

The term Catarrh is applied to a peculiar disorder of the nostrils and adjacent parts which prevails to an alarming extent, and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times.

In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent or muco-purulent, greenish yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fœtid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disturbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others, a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with giuish tenacity. Its lodgment embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucus into the throat so as to reject it by the mouth. This practice, popularly known as "hawking," is characteristic of Catarrh, and proves as embarrassing to the one affected, as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by the way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incrustations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts and not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which, in time, may destroy the bony structur of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities and then putrefies, giving rise to a stench which is really overpowering, and sufficiently fetid to poison the atmosphere of a whole room, and there are others in which all secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat, and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above, and behind the soft palate. Sometimes there is pain obstinately fixed in some particular part, as in the temples, on the top of the head, at the back of the neck, or behind the orbits, and, occasionally, pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted and at times assumes an exceedingly fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable stuffy sensation in the head, and occasionally to violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffling quality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "hem" more or less forcibly. In some cases patients complain of an uncomfortable feeling of fullness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently. Others again speak of a constant bad or nauseous taste in the mouth and throat.

The stomach generally suffers more or less and becomes weak and irritable; the appetite is capricious and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times, fearful, timid, agitated, and inclined to drowsiness and sleep; the memory weakened, and permanent impairment seriously threatened.

The mucous membrane soon becomes morbidly sensitive to unfavorable influences, and, in spite of the utmost care, becomes affected from the slightest causes, so that at last a breath of wind upon the lining of the nose or throat becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse, and investing a larger extent of surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat, larynx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the Stomach, Bowels, Kidneys, &c.

Thus catarrh becomes the starting point of consumption development, the disease being eventually transmitted to the lungs, both by nervous connection and continuity of surface.

So frequently has this fatal course been noticed that all those who are thoroughly conversant with the subject now look upon catarrh as a premonition and one of the very earliest manifestations of consumption.

Inhalations are applicable in all diseases of the respiratory organs, but must be prepared for each individual case as they severally require.

Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success. The very best references from those already cured.

CONSULTATION FREE.—Those who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but, if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions Address
